-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 09 July 2001.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Objections***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters "Fig. 15" (page 11 lines 3-5) and "Figure 16" have both been used to designate Figure 16. Additionally, a description of "Figure 15" is missing on page 11 of the specification. Furthermore, the description listed with Fig. 16 (page 11 lines 6-7) is incorrectly referring to Figure 16, and it should be referring to a figure that depicts steps for face-to-face advertising (not found in the drawings).

The informal drawings are not of sufficient quality to permit examination. Figures 2-6 are improperly labeled with text that continues from one page to the next and the next page simply being labeled a separate figure number and seem to be print outs of a website and not figures formatted for the review of this application. Figures 4-6 have multiple images that are not labeled with a description. Figure 6 also does not have a heading and has text cut off at the beginning of the page. The applicant must correct these and other drawing informalities.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of

Art Unit: 3622

any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance. Applicant is given a TWO MONTH time period to submit new drawings in compliance with 37 CFR 1.81. Extensions of time may be obtained under the provisions of 37 CFR 1.136(a). Failure to timely submit replacement drawing sheets will result in ABANDONMENT of the application.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8, drawn to a method of establishing a commercial relationship via a face-to-face intercommunication between a consumer and provider of service, classified in class 705, subclass 14.
  - II. Claims 9-15, drawn to a method of establishing a commercial relationship via an electronic intercommunication between a consumer and provider of service, classified in class 705, subclass 14.
  - III. Claims 16-24, drawn to a method for face-to-face advertising comprising arranging payment, wearing headdress, exposing message, and moving message in public place, classified in class 705, subclasses 52 and 14.
3. This application contains claims directed to the following patentably distinct species of the claimed invention: Figure 13 depicts a manual embodiment for establishing a commercial relationship via a face-to-face intercommunication between a consumer and provider of service on a message board to show one message at a time. Figure 14 depicts a manual embodiment for establishing a commercial relationship via a face-to-face intercommunication between a consumer and provider of service by using

several message boards in a rectangular box-like configuration to show multiple messages simultaneously. Figure 15, depicts an electronic embodiment for establishing a commercial relationship via a face-to-face intercommunication between a consumer and provider of service by using an electronic message board and a controller with a flat screen display configuration to show one message at a time. Figure 16, depicts an electronic embodiment for establishing a commercial relationship via a face-to-face intercommunication between a consumer and provider of service by using five electronic message boards and a controller to show five messages simultaneously. Therefore, these four species are both independent and distinct from each other.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

Art Unit: 3622

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Namrata (Pinky) Boveja whose telephone number is 571-272-8105. The examiner can normally be reached on Mon-Fri, 8:30 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eric Stamber can be reached on 571-272-6724. The **Central FAX** phone number for the organization where this application or proceeding is assigned is **571-273-8300** from July 15, 2005 as the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.
